FIRST REVIEW PROCESS

Once applicants submit all required documents, their business and personal documents will be reviewed to establish business viability, management expertise, realistic projections, strategic partnerships, innovative solutions, approved licensing, owner's investment and creditworthiness.

Business plans are scored by our review team and if the plan is scored lower than 80 points, a Reviewer will contact the applicant to discuss how the plan can be improved. If scored 80 points or higher, the plan is automatically forwarded to the Investment Committee for consideration.

SECOND REVIEW PROCESS

The Investment Committee reviews and approves all grant, loan and/or equity applications before they are forwarded to any external financial institutions. Investment Committee meetings are held weekly to allow applicants the opportunity to present their business plans and to address questions or concerns raised by the committee members. Once five of the committee members are satisfied with the applicant's business plan and pitch, an approval letter is issued to the applicant. However, if the members are not satisfied, a recommendation letter is issued to outline the main concerns to be addressed for future consideration.

Investment Committee Members comprise of representatives from the following agencies:

REVIEW PROCESS

FINAL REVIEW PROCESS

Approval of matching grant applications is not automatic and is sometimes dependent on the financial challenges of the applicant and available grant funding. Once the Investment Committee delivers a decision on the matching grant and government guarantee, the Funding Department will submit the guaranteed loan and/or equity application to multiple financial institutions. Representatives from these institutions may contact applicants directly to address their questions or concerns and/or they will do the same with our Funding Department.

Please note: The Access Accelerator does not have any bearing on the processes, timelines and/or decisions of the financial institutions.

APPROVAL

Grant, loan and equity funding applications are officially approved in writing. Although a scanned copy of the offer letter(s) will be delivered to the email address documented on the funding application form, an original copy of the letter(s) should be collected from the office of the approving institution.
